

Temporary 30-Day Electrical Service Agreement

The signature of both husband and wife are required on a Membership Application; and if the Application is not signed in the presence of a Dixie Electric Power Association employee, it shall be properly witnessed by two (2) persons.

I understand that temporary electrical service shall be provided in order to give time for my spouse to properly sign an Application. If this properly executed Application is not received by Dixie Electric Power Association within 30 days from this date, I authorize the Association to disconnect this service without further notice to me; and I do further indemnify and save the Association harmless for such disconnection.
